

# View From Heaven

## Yellowcard

I'm just so tired  
Won't you sing me to sleep  
And fly through my dreams  
So I can hitch a ride with you tonight  
And get away from this place  
Have a new name and face  
I just ain't the same with out you in my life  
Late night drives  
All alone in my car  
I can't help but start  
Singing lines from all our favorite songs  
And melodies in the air  
Singing
