

You're Stronger Than Me

[George Strait](#)

If you are sincere when you say you don't care
That we should just let the past be
If the love that we knew don't bother you
Darlin' you're stronger than me And if still loving you means I'm weak, then I'm weak
And I still fall apart when you speak or we meet
If the love that we knew don't bother you
Darlin' you're stronger than me If you can have fun with some other one
No thought of what used to be
If it's easy to say that it's better this way
Darlin' you're stronger than me And if still loving you means I'm weak, then I'm weak
And I still fall apart when you speak or we meet
If the love that we knew don't bother you
Darlin' you're stronger than me
