Work to a Calm

Gemma Hayes

Slow walk will do you good
Try and take it all in
You said you'll hold me down
Show me how to turn this mess aroundYou can cry
No one is looking at you
You can cry, cryCan't stay out of luck
Have trouble trying to wake myself
That's alright, I caught myself
Dragged me up to better healthYou can cry
No one is looking at you
You can cry, cryYou can cry
No one is looking at you
You can cry, cryAll good things must change
And I'd fight it if I could
All good things must changeI worked myself into a calm
I worked myselfYou can cry
No one is looking at you
You can cry, cryYou can cry
No one is looking at you
You can cry, cryAll good things must change
And I'd fight it if I could
All good things must change
