Altar Girl

The Weeks

She was shake-shake-shake-shake-shakin' her hips
And I've been bite, I've been bite, I've been bitin' my lip
Why don't you have yourself a drink?
Well I guess I guess we just need a little more time to think

Don't take my name, don't take my place
Little girl says she's scared to lose her faith
Don't take my name, don't take my place
Little girl says she's scared to lose her faith

She has eyes that could cut like a razorblade
Books and bibles read but they never save
Little girl work your hands down like a slave
I said, don't take my name don't take my place

Don't take my name, don't take my place
Little girl says she's scared to lose her faith
Don't take my name, don't take my place
Little girl says she's scared to lose her faith

My little altar girl I wait for you tonight
When I sit alone you know, I'll be right by your side
My little altar girl I wait for you tonight
When I sit alone you know, I'll be right by your side
My little altar girl I wait for you tonight
When I sit alone you know, I'll be right by your side

My name
My place
My name
My place
My name
Yes my name and my place
Yes my name and my place
My name my place
Yes my name and my place
Yes my name and my place
