

Silencer

Voodoo Glow Skulls

Roll your sleeves up, put up your dukes
The time has come for us to speak the truth
It never hits you until you realize
Youve been victimized in front of your familys eyes
Its getting really sad how now you have to fear the man
I just cant understand why they shot up her sedan(We got to fight)
(We got to fight)
(We got to fight)
The silencer(We got to fight)
(We got to fight)
(We got to fight)
The silencerPublic outrage, a community speaks
The justice system has just sprung a leak
Public figures are marching in the streets
Standing their ground against corrupt police
Its getting really sad how now you have to fear the man
Lets burn 'em with the Ku Klux Klan(We got to fight)
(We got to fight)
(We got to fight)
The silencer(We got to fight)
(We got to fight)
(We got to fight)
The silencer(We got to fight)
(We got to fight)
(We got to fight)
The silencer(We got to fight)
(We got to fight)
(We got to fight)
The silencerYou can't stop the silencer
You can't stop the silencer
You can't stop the silencerThe color skin, skin to win
Becomes an issue, it becomes a sin
Everybodys focused on race, intense criticism settles in
Its getting really sad how now you have to fear the man
When four white officers kill a black woman(We got to fight)
(We got to fight)
(We got to fight)
The silencer(We got to fight)
(We got to fight)

(We got to fight)
The silencer(We got to fight)
(We got to fight)
(We got to fight)
The silencer(We got to fight)
(We got to fight)
(We got to fight)
The silencerYou can't stop the silencer
You can't stop the silencer
You can't stop the silencerYou can't stop the silencer
You can't stop the silencer
You can't stop the silencerYou can't stop the silencer
You can't stop the silencer
You can't stop the silencerYou can't stop the silencer
