

# 21 Days

Scott Helman

21 days  
Till the zombies come  
And the earth is done  
I'm gonna love someone You look so calm  
Not one bit scared  
In the monster's stare  
What I got I'll share So let 'em burn the world  
If a cardboard castle  
Is all we have love  
We could make it sweet  
I wanna live with you  
In a cardboard castle  
I know it won't last but  
Neither will we  
We woke up dazed  
With the animals gone  
And you told me love  
There's nowhere left to run And all of the fighting  
And all the world wars  
It makes you wonder  
What it was all for I wanna live with you  
If a cardboard castle  
Is all we have love  
We could make it sweet  
I wanna live with you  
In a cardboard castle  
I know it won't last but  
Neither will we  
Never hiding under newspaper sheets  
We'll keep fighting even when we're weak  
And I will kiss you as the red sky bleeds  
We'll show them how to love 21 days  
Till the zombies come  
And the earth is done  
I'm gonna love someone So let 'em burn the world  
If a cardboard castle  
Is all we have love  
We could make it sweet  
I wanna live with you

In a cardboard castle  
I know it won't last but  
Neither will we
