

# Almost Like We're Already In Love

## Masked Intruder

You and me,  
We can be lovers, baby, cant you see?  
All of the chemistry between us,  
Have you seen us?  
It's true.  
Me and you. You catch my eye,  
I could swear you almost wink as you walk by.  
I have been waiting for a sign girl,  
I ain't lying girl.  
I see,  
You and me.Well it's almost,  
It's almost like we're already in love.  
Yeah it's almost,  
Like we're already in love,  
You and I.  
There was a time,  
I thought that I,  
That I would always be alone.  
You came along,  
Now life's a song,  
And I can't wait to see tomorrow.  
It's almost,  
It's almost like we're already in love.  
Yeah it's almost,  
Like we're already in love,  
You and I.
