

XX Century

Small Black

Meet me down
at the the steps
tell no one
this is prolly our only
chancenever mind what they said
can be done
just make sure they
don't see you leavethrough the waterfall
hop the fence
can't take
the obvious way20th century
20th century...
doesn't mean that
we're lost
just means
we're a little off
yes, we blew it back then
this time we've
practiced everything
perfectlypick out a coat
head for the northjustget there
want it to/wanted to go another way
but its always the same
but it always the samewhen I get there
even when I get there
even when I get there
on time
20th century
20th centurySomeone to come
and light the way
Someone to come
and light the way20th century
20th century
