

My Life Is Right

Big Star

Once I walked a lonely road
I had no one to share my love
But then you came and showed the way
And now I hope you're here to stay You give me light, you are my day
You give me life and that's right
You give me light, you are my day
You give me life and that's right
So right, so right, so right Lonely age of uncertainty
They disappear when you're near me
When you're around my life's worthwhile
And now I long to see you smile You give me light, you are my day
You give me life and that's right
You give me light, you are my day
You give me life and that's right
So right, so right, so right My life is right
My life is right
My life is right Once I walked a lonely road
I had no one to share my love
But then you came and showed the way
And now I hope you're here to stay You give me light, you are my day
You give me life and that's right
You give me light, you are my day
You give me life and that's right
So right, so right, so right
My life is right
