

# Sweet Adeline

## The Suntones

Cut this picture into you and me  
Burn it backwards, kill this history  
Make it over, make it stay away  
Or hatell say the ending that love started to say  
Theres a kid, a floor below me saying, "Brother can you spare?"  
Sunshine for a brother old man winters in the air"  
Walked me up a story asking how you are  
Told me not to worry, you were just a shooting star  
Sweet Adeline  
Sweet Adeline  
My Clementine  
Sweet Adeline  
Its a picture perfect evening and Im staring down the sun  
Fully loaded, deaf and dumb and done  
Waiting for sedation to disconnect my head  
Or any situation where Im better off than dead
