

# Head Over Heels (Live)

## Accept

Late at night in the park  
I saw them slipping in the dark  
For heaven sake what's going on  
It's like someone is here

Gotta follow now  
Like being in a trance for me  
There's silence here  
More than all the noise

Spurting in the dark head over heels  
Overheated heart head over heels  
Treating it so hard the spurting feels  
Everyday, every night

Spurting in the dark head over heels  
Overheated heart head over heels  
Treating it so hard the spurting feels  
Oh yeah

Down on my knees, God help me please  
Gotta know who's out in the dark  
I've stopped my breath, can feel the hands  
Could hear the sound of people making love  
I surrender right now  
I've to be touched I feel so much

Spurting in the dark head over heels  
Overheated heart head over heels  
Treating it so hard the spurting feels  
Everyday, every night

Spurting in the dark head over heels  
Overheated heart head over heels  
Treating it so hard the spurting feels  
Yeah

Spurting in the dark head over heels  
Overheated heart head over heels  
Treating it so hard the spurting feels

Everyday, every night

Spurting in the dark head over heels  
Overheated heart head over heels  
Treating it so hard the spurting feels  
Everyday, every night

Spurting in the dark head over heels
