

# Invisible

## Modest Mouse

Oh, well lesson dance and shoot to God a storm suffered owl  
You're not invisible inside your car  
No matter what stupid sort of mission you're on  
Well, you're not invisible inside your car I go absolutely mental good ramblin' charge  
Well, you're not invisible inside your car  
No matter, you could breathe it like your flies in a jar  
Yeah, you're not invisible I like the sailing teaming  
Well, it's true that the moon could pull it back far away from me  
I should just let it be  
Well, it's true that the moon could pull it back far away from me  
And it's sad Oh, we had to have some kind room shaped like a charm  
Well, you weren't invisible not all along  
No matter how many eagles came in the door  
We were not invisible I knew that I like the sailing teaming  
Well, it's true that the moon could pull it back far away from me  
And there's the orphan sea  
We were never invisible but that I guess we cannot see Of course this all had been laid down  
Way before we lay down for it all  
Before we had a course, of course  
Of course this all had been laid down Of course we laying down, of course we laying down  
Of course we laying down  
Of course we laying down, of course we laying down  
Of course we laying down I like the sailing teaming  
Well, it's true that the moon could pull it back far away from me  
I like the orphan sea  
Well, we were never invisible but that I guess we cannot see We'll get crushed by the ocean  
But it will not get us wet  
Crushed by the ocean  
But it will not get us wet Crushed by the ocean  
But it will not get us wet  
Crushed by the ocean  
But it will not get us wet
