

# Never Had It Bad

## Young Fresh Fellows

The blue jays in the backyard  
are living fast and hard  
I'm cradling a cup of tea  
and loading the washing machine

So all I ask is don't be sad  
Because I never had it bad  
Just take my hand and don't go mad  
Just because I never had it bad

You say I'm good at good time  
Well, good times are pretty good  
And I am thankful every day  
It's time you understood  
That I had feelings, it's true  
Just not as many as you

Now when the future's falling  
like leaves all around  
You'll see a million others  
that never left the ground  
Some forgive and some forget  
I'm sure I'll get mine yet

But until then now don't be sad  
Because I never had it bad  
Just take my hand and don't go mad  
Just because I never had it bad

Yeah, all I ask is don't be sad...
