

Jesus Freak

[Dan Bern](#)

Advisory - the following lyrics contain explicit language:

The day they found a cure for AIDS
The day they found a cure for AIDS
Everybody took one little pill and was okay
The day they found a cureThe day they found a cure for AIDS
Everybody took one little pill and was okay
I slept with Cindy and Martha and Sue
I slept with Julie, Melissa and KateThe day they found a cure
The day they found a cure for AIDS
Everybody took one little pill and was okay
The people who had plotted to get rid of all the gaysAdmitted their guilt and everything was fine
Everybody else said, I didn't know
The day they found a cure
For 6 months, no one went to work, they all had orgiesMorning after pills were sold in grocery stores and gas
stations
The day they found a cure for AIDS
Everybody took one little pill and was okay
We rented dirty movies and ordered out for foodFor 3 solid weeks everyone I met was nude
I slept with Julie, Melissa and Jake
Nobody was afraid
The day they found a cureThe day they found a cure
The day they found a cure for AIDS
