

# Holiday

## Dizzee Rascal

Get your passport and your bikini  
You need a holiday, come, see me  
I know you're tired of the same old scenery  
And I could change all that so easily Don't worry 'bout a thing, girl, take a chance  
I'll take you to the south of France  
Like Cannes, if anybody can, I can  
We can go shopping in Milan I just hope you understand, I hope you see it clear  
It really don't matter how far or near  
'Cause there's no distance that can stop my persistence  
Just a few days of the year Plus I've got clout, so let's ride out  
We ain't gotta fly, we can just drive that  
We can have a rave or we can hide out  
And won't tell nobody, let them find out If you ain't doing nothing let's fly away  
Drive away, get away  
We can go to the club or hide away  
We can do what you want to, baby If you ain't doing nothing let's fly away  
Drive away, take a holiday  
We can go to the club or hide away  
We can do what you want to, baby Don't watch my passport photo  
I know I look a bit loco  
And I know that my Spanish is so-so  
But let's try keep that on the low-low 'Cause we're going Ibiza  
I've got friends that really wanna meet ya  
With champagne and a whole lot of love  
It's all good, darling, a Blue Marlin will please ya And I'll never let your belly get empty  
Even when your belly's full you're still sexy  
We can ride speed boats, we can ride jet skis  
I'll show you the time of your life if you let me I just want to put a smile on your pretty face  
If I didn't it'd just be your pretty waist  
So you look like a girl with a bit of taste  
So I couldn't take you just any place If you ain't doing nothing let's fly away  
Drive away, get away  
We can go to the club or hide away  
We can do what you want to, baby If you ain't doing nothing let's fly away  
Drive away, take a holiday  
We can go to the club or hide away  
We can do what you want to, baby I know you're really busy and I know you've got plans  
But are you really too busy for a sun tan?  
I ain't talking about walking down the high street

I'm talking about laying on a bright white beach  
With a Pina Colada or whatever you'd rather  
White wine, that's fine, just get me a lager  
Then after we'll take a truck to the night spot  
The hot spot, the top spot, party around the clock  
And when we get there its strictly VIP  
No need for ID, security know me  
No waiting in line, no high entry fee  
Don't worry about nothing when you're beside me  
I'll get you lively and loosen you up  
Have a bit of champagne, it'll boost you up  
I wanna move you up, I wanna take you away  
So have a word, darling, what do you say?  
If you ain't doing nothing let's fly away  
Drive away, get away  
We can go to the club or hide away  
We can do what you want to, baby  
If you ain't doing nothing let's fly away  
Drive away, take a holiday  
We can go to the club or hide away  
We can do what you want to, baby  
Do what you want to, baby, oh yeah  
Let's do what you want to, baby
