

Firewood

Seacats

Go home to your girl
pay the bills and lock your door
now check the news and
try to find someone who diedgo on make a truck
through the kitchen
to the back fridge
to ease your mind and
take it off those unpleasant timesWell I'm so sorry I dont spend my time chopping firewood
And I'm so sorry I dont take pride in the size a my truck
And I'm so sorry I dont take advice from any person close to me
And I'm so happy cause I dont listen to a word you say to meDon't change a thing
cause your life is perfect man
you got everything
that you could need
So slam your fists onto the table
and curse yourself for letting it go like thisWell I'm so sorry I dont spend my time chopping firewood
And I'm so sorry I dont take pride in the size a my truck
And I'm so sorry I dont take advice from any person close to me
And I'm so happy cause I dont listen to a word you say to meYour mind
is an airport
where nothing, no one staysWell I'm so sorry I dont spend my time chopping firewood
And I'm so sorry I dont take pride in the size a my truck
And I'm so sorry I dont take advice from any person close to me
And I'm so happy cause I dont listen to a word you say to me
And I'm so sorry I dont spend my time chopping firewood
And I'm so sorry I dont take pride in the size a my truck
And I'm so sorry I dont take advice from any person close to me
And I'm so angry cause you dont listen to a word that I say to you
