Dead to Me

Biohazard

You hate me and I hate you back
But there's a difference between you and me
Ignorance and fear pervade your small mind
You forfeit your right to live in peaceI want you to know that I will never rest
For a single moment of your miserable life
Surgically I cut you from my world
You are my cancer and I am the knifeI cut you off, forever and a day
Never again will I look your way
You beg for mercy on your knees
No remorse, you're dead to me
You're dead to me, you're fucking dead to meI gave you light to live in my world
But one last time you pushed too far
You selfish motherfucker, now the damage is done
You can never turn back from all out warYou can lock me down but I hold the key
Cuz there's nothing in this world that can ever break me
Heart and mind strong, I forever stay free
My last words to you, you're dead to meI watch you stumble
I hear you fall in the dark
Try as you may
You just can't see you're too blindTrapped in the mirror of your dark soul
You fall again, this time from grace
You land alone
Burning
