Light Years

Kylie Minogue

10, 9, 8, 7, 6, 5, 4, 3, 2, 1
Listen can you hear the distant calling?
Far away, but will be with you soon
Rocket into outer space in orbit
Take us to the pop stars on the moon
Ahh, ahh, ahh
Travel in light years
Ahh, ahh, ahh
Travel in light years
Have yourself a taste of foreign glamor
Speeding on our way to something new
Missing for a night but gone forever
But we are here to take good care of you
Ahh, ahh, ahh
Travel in light years
Ahh, ahh, ahh
Travel in light years
Ahh, ahh, ahh
Travel in light years
Ahh, ahh, ahh
Travel in light years
Please, fasten your seat belts
My name is Kylie
I'll be your purser
The exits are located in the front and the rear of the craft
Get up to get down at Discoteca
Take a breath and take the plunge my dear
Maybe things that you don't know are better
I'll take you in my capsule out of here
Ahh, ahh, ahh
Travel in light years
Ahh, ahh, ahh
Travel in light years
Ahh, ahh, ahh
Travel in light years
Ahh, ahh, ahh
Travel in light years
Ahh, ahh, ahh
Ahh, ahh, ahh

(Ahh, ahh, ahh)
Thank you for flying KM air
We hope, you had a pleasant flight
(Ahh, ahh, ahh)
Please fly with us again
(Ahh, ahh, ahh)
(Ahh, ahh, ahh)
(Ahh, ahh, ahh)
