

# Agony (feat. Jyro)

## Argyle Park

You entered in left me no life to live  
You made me feel I have no good to give  
You've stripped away any normality

A life in hell is my reality So many questions with NO solutions My head is crushed under the weight

Of all the pain you've helped create

Looking for something I have yet to find

Sanity and peace of mind god knows I've tried Above the pain the mask I'm forced to wear

Beneath the same the cross that I must bear

I will not trust I'm so afraid to feel

Prospering wound that seems will never heal AGONY(samples) 'You don't expect to live in this place without it  
leaving its mark do ya? If you do your living in a dream land boy. "I can taste your pain.' 'Your next!'
