# Pandora's Box

## Throwing Muses

Perfect, perfect body
And a broken nose
Perfect body and two black eyes
Oh don't remind me
I'm right, i'm right behind youInside that pandora's box
Was a can of worms
You'll milk that shaved head you move like an insect
I'm right behind you
I'm right behind youUnholy hotel
What a place to sleep
And that chemical smell
But i'm geting mine
Right there behind you
I'm right, i'm right behind youInside that pandora's box
Was a can of worms
You'll milk that shaved head you move like an insect
I'm right behind you
I'm right behind youThat ocean's not so deep
That water's not so dark
Flood of water, bitter sea
That did you like you needed mePerfect, perfect angel
With a dirty mouth
A perfect angel
But i'm gonna fry
Right there behind
I'm right, i'm right behind youInside that pandora's box
Was a can of worms
You'll milk that shaved head you move like an insect
I'm right behind you
I'm right behind youThat ocean's not so deep
That water's not so dark
Flood of water, bitter sea
That did you like you needed me
