

# Mechanics of the Heart

Cheryl Cole

(Verse)

Sometimes I feel scared

Feeling cold

Feeling lonely

On your own

I can feel this fear

Getting stronger

It's taking over

I'm losing control

(Chorus)

And if you are not religious

Then how will you ever believe?

And if I don't know procedures

Then how am I meant to proceed?

To mend your heart

To mend your heart

To mend your heart

To mend your heart

(Refrain)

I've tried best to operate on you

Tryin' to learn the mechanics of a heart

(Verse)

Broken hearted

Torn apart

What was left on the floor

Has been smashed into pieces

First she hurt it

And then she deserted

But I'm trying to save it

Before your heart ceases

(Chorus)

And if you are not religious

Then how will you ever believe

And if I don't know procedures

Then how am I meant to proceed

To mend your heart

To mend your heart

To mend your heart

To mend your heart

(Refrain x4)

I try my best to operate on you  
Tryin' to learn the mechanics of a heart

I try my best to operate on you  
Tryin' to learn the mechanics of a heart

I try my best to operate on you-u-u  
Tryin' to learn the mechanics of a heart

I try my best to operate on you-u-u  
Tryin' to learn the mechanics of a heart

(Outro)

To mend your heart

To mend your heart

To mend your heart

To mend your heart
