

# Wait a Minute

Seth Walker

Looks like the sun will shine again  
for so long, I couldn't find a friend  
Cause I've been walking down lonely avenue  
it's the road I've had to take to get to you

So many times before  
I've let a good thing slip away  
but when you walk through the door  
I'm doing all in my power to make you stay

Chorus:

So baby wait a minute  
stop  
hold it right there  
Oh oo whoa oo whoa, don't you go nowhere

Now you might think that I'm not the one  
and your friends say that I'm just having fun  
so let's-a make this clear I'm not playing games  
I think I love you and I hope that you feel the same

So many times before  
I've let a good thing slip away  
but when you walk through the door  
I'm doing all in my power to make you stay

Chorus

So many times before  
I've let a good thing slip away  
but when you walk through the door  
I'm doing all in my power to make you stay

Chorus

I said wait a minute  
stop  
hold it right there  
oh oo whoa oo whoa

don't you go nowhere

I said wait a minute

stop

hold it right there...
