Set Me Free

Jennifer Knapp

you thought we would still be friends
after the rains had ended
after the flood.
is it enough that we had
stopped pretendingif you don't love me
set me free
if you don't love me
set me freetime has made fools of us all
don't wind the watch
but it keeps turning
the wound is said to heal
is still very real
so I am learning...if you don't love me
set me free
if you don't love me
set me freean i will go away
go awayshould i find my resting place
amidst the ruins of shame
and disgrace
who are you to care?
you're no longer there to judge
what i've become...if you don't love me
set me free
if you don't love me
set me free
if you don't love me
set me free
