Rat Queen

Kitten Forever

Transplant my lion heart
Wires in my lion brain
Turn 'em on
Turn 'em offLanguage inside me
Skull swell, overfed, electric super sad
If you wanna grow a spine, come over and water mine
If you wanna grow a spine, come over and water mineSee my dread from space
One bruise you give for every ten I take
What is fun if it's not how I feel?
Like a rat queenFeel like a party like the life of the party
I'd invite you to the party if there was a fucking partyPsychic connection like her hair to the horizon
Full drench attention, mouth brokeIf you wanna grow a spine, come over and water mine
If you wanna grow a spine, come over and water mineSaturate gold, structure perforated
I'm dripping from the landline, landline
All your tiny stories are in season, summer demonIf you wanna grow a spine, come over and water mine
If you wanna grow a spine, come over and water mineThe admirable woman pushes out
She's covered in matted fur and bad poetry
Her palms glow like she's the rat queen
She's taut, taught to bleed, not taught to scream,
"I am my own god, I am my own baby."The animal inside me
Is the animal inside me
Is the animal inside me
Is the animal inside me
Is the animal inside of me
