

Back to Earth

Rapture Ruckus

Verse 1: Can you see the stars tonight?

See the echoin' of light

Flying past the milky way

I'm lost in space again

I can't imagine how

I'm going to get back down

My radio ain't receiving nothing from ground control Pre-Chorus: And we know

This world is turning faster each day

For whatever reason, we lost where we're going

And we floating in otter space Chorus: All I know

Is spinning out of control

Somebody bring us back to Earth

'Cause i cant see through this cloud I'm in

but I'm hearing your voice

as you gotta come here

Somebody bring me back to Earth

Verse 2: It feels like I've been at it forever

So long I can't even remember

What It's going to feel to be home with yo

Yea, I'm holding you

I didn't even say goodbye

Just turned around and saw you cry

I'd give anything to be by your side to apologize-Pre-Chorus and Chorus- I'm ready for landing

my landing gear is down

but I'm coming way fast

I'm going to hit the ground

Somebody help me, somebody got me down

Somebody from the control tower

My ship is coming now

Hear it now

Can you see me now?

I'm burning up, I'm outta control

Outta fuel, I don't gotta enough

I don't know I'll make it through

We gotta a problem Houston

Can you pull me though?-Chorus- Just bring me back to Earth

Bring me back to Earth
