

If There Were No Dreams

Neil Diamond

If there were no dreams
And there were no dreamers
And how could I dream you up
You're still a mystery to meThe way that we love
The life that we're leading
I don't want to give you up
Whatever I'll have to do, I'll doPut a mountain there and I'll tear it down
If it's much too high then I'll go around
I won't stop for anyone or anything
And I'd love you even if there were no dreamsIf there were no dreams
How could we be lovers
And how could I need you so
The reason's clear to even meI know that it's right
You don't need to wonder
If you're up against that wall
I'm gonna be up against it tooIf a mountain's there we can tear it down
If it's much too high we'll just go around
We won't stop for anyone or anything
We'd be lovers even if there were no dreamsYes we would
Lovers even if there were no dreams
