

Rock Me

E-Rotic

[J.D.]SoSoDef (what?)
Huh, yeah I don't dance ... I mash
(It's like dis doe)
AZ, come on

[AZ the Visualiza]It's a new one, time for a Range, baby blue one
The crew won, out of formilli, feel I'm due one
Focus right, one hit -- blow me overnight
Holy mics, bein guarded -- by Jehovah's light
Jewels drapin, in a Coupe slidin cruise tape in
for my troops I was sworn in like a true Mason (yeah)
Tables turned, left the youth engaged and learned
Thoughts raised concern just like blunts made to burn
I play this life, homey besides on the status
either play it right, or then vibe until the madness
Monopolize, position wise watch the rise
It's prophesized, see the two and drop fives
Chorus: Jermaine Dupri
Erybody hands up, AZ and JD
Whole club get it krunk, the drinks is on me
I keep the dancefloor lit, ladies shakin they hips
spendin all the chips makin nuttin but hits, what?
(A, Z, play my song
Rock me all night long, rock me all night long)

[AZ the Visualiza]Salute me, rock silk and linen over Gucci's
Iced out, platinum Roley -- with the rubies
Baby uzis, Perrier make me woozy
Sweet ja'causezi, it's live my life like a movie
Connect doe, pimped off the Henny X-O
Sex slow, *fuck* on Chanel velcro (ha ha ha)
Visualize that, bought a sailboat, try and buy that

Besides that, hustle forever -- never sidetracked
Sightseein, pretty ladies in the white B.M.
Out of state plates invitin me in
Got my mind on this paper chase -- sorta strung
No longer gotta scrape the plate -- it's more to come
Respect how these streets made me -- why play me
I'm half crazy - half Marines, half Navy
So who it be? You or me, ten a key

Intensively, I know you players envy me

Chorus

[JD] C'mon

[AZ the Visualiza]Come mingle with the illest minds, of mankind

Taught to shine, built out of crew and crime

Respect squares, straight shots burn your chest hairs

Chancin black, wish I had less shares

It's like a roller coaster, street life'll comatose ya

Cologne's kosher, a man's own is through his culture

Trapped in the arms of Satan, congregatin

Conversatin, thoughts way beyond relation

It's truth or deal, chose ones move sincere

Keep the youth aware, Supreme Court -- the proof is here

Chorus

[Jermaine Dupri]Ha ha, now everybody in the house just

Clap your hands, uh, clap your hands

Uh, stomp your feet, uh-uh-uh, stomp your feet

Just, clap your hands, uh-huh, clap your hands

Uh, stomp your feet... AZ and J.D.
