

One Thing

Pat Green

I used to be so down and out
I used to be so blue
Now the only thing I talk about
And the only thing I doIs stand around like a school kid
Just off the merry-go-round
And if Im dizzy its because Im headed
To the one good thing Id foundYeah the one thing is good as gold
Im nothing without you too hold
Yeah the one thing I know in this world
Is that I need you to be my girlI got so good at hiding
I couldnt find myself
Yeah but girl you got me smiling
Feeling like somebody elseI guess you changed my makeup
I ain't the same sad clown
Yeah ever since you showed up
This ain't the same sad townYeah the one thing is good as gold
Im nothing without you too hold
Yeah the one thing I know in this world
Is that I need you to be my girlOne thing is good as gold
Im nothing without you too hold
Yeah the one thing I know in this world
Is that I need you to be my girlYou're the one thing
You're the one thing
You're the one thing
