

# Serious

## Five

Yea

Yea, yea, yeaBoogie down, boogie down

You gotta get serious

What, what c'monYo, I'm perplexin' as I wrecks the decks

So checks the flex, political sex

I bring the funk to your necks check it

Second time around, better than the first

I quench your thirst, my rhymes'll fill ya till ya burst

'Cause what we're gonna do for you

You know it's true

We got a second album coming through

Too many people thought we couldn't go on

But yo we're still number one

See we shine like the sunHands up in the air, wave 'em like you care

Feel the funky beat, everybody on your feetGet serious, we've got it goin' on tonight

Get serious, everythin' will be alright

All I know is true that I wanna be with you

You gotta get serious, serious, seriousCould I be the one that twists tighter than a curl

Comin' through the mist

Check my definition

Rhyme composition

On the double o five mission

With the aim to please, any beef with the rod gone fishing

Check if you're down tonight

Put your hands in the air if you feel alright

Got enough for what you need

So get serious aah

Baby pleaseHands up in the air, wave 'em like you care

Feel the funky beat, everybody on your feetGet serious, we've got it goin' on tonight

Get serious, everythin' will be alright

All I know is true that I wanna be with you

You gotta get serious, serious, seriousNow we've been waitin' for so long

Give me a chance to get it through

You are the flavor to my song

Thats why I wanna be, I wanna be with youStop, clear the stage so we can get busy

Open up your mind while I hit you with the nitty gritty

We came to rhyme

We came to get down

Yo, when we rock the mike we bring the funk into your town

So I drop a rhyme on the mike while it's mine  
Then you gotta pass it on while I rock you with a line  
As we hip, we hop  
We're gettin' others on the run  
Flickin' switchers on the bottom of the mike  
'Cause we're done  
Get serious, we've got it goin' on tonight  
Get serious, everythin' will be alright  
All I know is true that I wanna be with you  
You gotta get serious, serious, serious  
Get serious, we've got it goin' on tonight  
Get serious, everythin' will be alright  
All I know is true that I wanna be with you  
You gotta get serious, serious, serious
