

# Break the Sky

## Flagship

Blood shot eyes  
I look at you with blood shot eyes  
I couldn't hide it from you tonight  
I couldn't keep it from the lightDry your eyes  
You didn't need to dry your eyes  
You couldn't find a tear to cry  
You couldn't feel enough to trySo now you can begin  
To lift it from your skin  
The feeling in your heart  
Flows no more  
Flows no moreGive me one more time  
Gonna make you mine  
All right, I'm gonna make it  
All rightCan you find the time  
To change your mind  
All right, I'm gonna make it  
All rightIt's not the feeling of your skin  
That turned my head again  
It's just the feeling in your heart  
Don't waste, don't waste this timeWe've seen it all before  
It turns into a war  
But I can feel you in my heart  
Don't waste, don't wasteAll we had  
Just take the shot  
I've lost my head  
I've lost my mindBreak the sky  
Drink the pain  
I've lost my head  
But I've found these chainsGive me one more time  
Gonna make you mine  
All right, I'm gonna make it  
All rightCan you find the time  
To change your mind  
All right, I'm gonna make it  
All rightWell I'll break the sky  
I'll drink this pain  
Cause I've lost my head  
And I found these chainsTake your chain  
Feel the weight crush down from aboveTake my love

And carry it away to God above  
Take my love  
And bury it away till kingdom come.
