I Remember

[Keyshia Cole](#)

Where were you,when I said I loved you
And where were you when I cried at Night
Waiting up, couldn't sleep without you
Thinking of all the times we sharedI remember when my heart broke, I remember when I gave up lovin' you
My heart couldn't take no more of you, I was sad and lonely
I remember when I walked out, I remember when I screamed I hated you
But some how deep inside I deep inside still lovin' youSad and lonelyNo one knew all the pain I went through
All the love, I saved deep in my heart for you
Didn't know, where I would go, where I would be
But You made me leave, and plus my heart it just, it just kept telling me so ohI remember when my heart broke,
I remember when I gave up loving you
My heart couldn't take no more of you
I was sad and lonelyI remember when I walked out, I remember when I said I hated you
But some how deep inside still loving you
So sad and lonelyThere was nowhere else to go oh
No body else to turn to no
For the rest of my life, I promise myself I, will love me first
Then you and meI remember when my heart broke,I remember when I gave up loving you
My heart couldn't take no more of you
I was sad and lonelyI remember when I walked out, I remember when I said I hated you
But some how deep inside still loving you
Sad and lonelyI remember when I walked out, I remember when I gave up loving you
My heart couldn't take no more of you
So sad and lonely heI remember when I stormed out,
I remember when I Gave, up loving you
I was sad and lonely
