

The Arms of the One Who Loves You

Xscape

I know you're going, I can't make you stay
I can only let you know I love you anyway
And if the road you take leads to heartbreak somewhere down the line
If someone ever hurts you or treats your heart unkind You just run to the arms of the one who loves you
You just run to these arms and these two arms will keep you warm
When rain has found your heart, never fear, I'm never far
You just run to the arms of the one who loves you I want you happy, I want the best for you
And if you have to leave to find your dream, I hope that dream comes true
But if the world you find brings you hard times, if someone makes you cry
I'll be there to hold you, I'll be standing by You just run to the arms of the one who loves you
You just run to these arms and these two arms will keep you warm
When rain has found your heart, never fear, I'm never far
You just run to the arms of the one who loves you Oh my love is strong enough, you know
Strong enough to let you go
But I'll always hold you inside my heart
And if you should ever change your mind
You can come back anytime
And when you do, you just Just run to the arms of the one who loves you
You just run to these arms and these two arms will keep you warm
When rain has found your heart, never fear, I'm never far
You just run to the arms of the one Run to the arms of the one who loves you
You just run to these arms and these two arms will keep you warm
When rain has found your heart, never fear, I'm never far
You just run to the arms of the one who loves you
You just run to the arms of the one who loves you
Run to the arms of the one who loves you
