Holding Back

Elessar UK

I keep counting the footsteps from the hallway, so I don't feel alone
I see the light through the window but the colours fade and nothing feels like home
I can't wait here forever but you don't see that one day things could change
Just as confidence sings it
Take a look around and tell me we're not the same

And why can't I stop holding my breath instead of taking a chance with you
And I'd welcome my worst enemy till I see this disease right through

I'm always talking to myself, with no answer
I'm chasing every word
Cause your the one that could save me but you walk away and give up everything
Cause this is the part of me that leaves behind anxieties and I'm gone
I don't want to be that way
Tell me that you feel the same

And why can't I stop holding my breath instead of taking a chance with you
And I'd welcome my worst enemy till I see this disease right through

Settle down for one last time with you
Holding back so we can see this through, see this through

I keep counting the footsteps, from the hallway
I can't wait here forever but you don't see
I'm always talking to myself, with no answer
Just as confidence sings it
Take a look around and tell me we're not the same

Why can't I stop holding my breath
Instead of taking a chance with you
And I'd welcome my worst enemy till I see this disease right through
