

# After You

## Jimmy Wayne

This old four way stop  
I've been here a lot  
More times than I can count  
Right goes to mama's place  
Left to the interstate  
Straight ahead goes straight through town  
It's good to be back home  
I waited way to long  
But part of my heart has never been gone 'Cause I'm not one bit closer  
To being over you  
It's almost like the hands of time haven't moved  
'Cause everywhere I look  
I see your memory hangin' 'round  
They outta name this town after you There's where we used to park  
That night my truck, it wouldn't start  
We gave into love the very first time  
And there's where you said you'd wait  
'Til I came back someday  
But too many some days slipped on by  
That's where you live now  
Fifth street, second house  
I can't blame you, girl, for settling down But I'm not one bit closer  
To being over you  
It's almost like the hands of time haven't moved  
'Cause everywhere I look  
I see your memory hangin' 'round  
They outta name this town after you, you Oh after you  
Things will never be the same  
But then again, after you  
Everything is still the same 'Cause I'm not one bit closer  
To being over you  
It's almost like the hands of time haven't moved  
'Cause everywhere I look  
I see your memory hangin' 'round  
They outta name this town after you
