

# Until the End (feat. Foxes)

## Sub Focus

Until, until the end, promise of a faith unbroken.  
Into, into the night, setting of our hearts, on your soul.  
Don't fear, don't fear the end,  
nothing's gonna change, while we sleep.  
Embrace, embraces a sense of letting go, of something.  
At the end of every bright day, let the sun move on and make way.  
Let the sun of every new hope,  
let the daylight into your home.  
Until, until the end, promise of a faith unbroken.  
Into, into the night, setting of our hearts, on your soul.  
At the end of every bright day,  
let the sun move on and make way.  
Let the sun of every new hope,  
let the daylight into your home.  
Oh-oh-whoa. Oh-oh-whoa-whoa. (x4)  
Until, until the end. (x8)
