

Let Go

jj

All I've left is my soul
Fall left me with this winter so cold
Take me away
Like an overdose on heroinBaby, we were born for fun
Or maybe to sleep in the sun
A place where new waves come in
A place you'll be hereLet go
Let the wind blow
Back your head tonightLet's go
Let your friend know
That you're here on a beach by my sideCalled me today on the phone
The sun guided me home
I'll never be alone again
'cause I've got a friendLet go
Let your skin show
That you've been in the sun todayLet's go
Let your mind blow
All your sorrows away
