

# Can't Get Enough

## Snow

I know with my heart and soul  
You are the one to fulfill all my needs  
And when I'm with you, don't wanna leave you  
And in the night time you're all that I dream Because I love, love, I want, want, I need, need  
It's gotta be love 'cause I just can't get enough  
'Nough I want, want, I need, need  
It's gotta be love 'cause I just can't get enough She's got the look, everybody wants to know  
But it's me she wants to show  
Heartbreak no more as I found that special girl  
That she brightened up my world She's mine, all mine, and she belongs to only me  
In my arms she's got to be  
You know the score and when you're not here with me  
It makes me want you much more That's why I want you, I need you  
Gotta, gotta, gotta have you and that special love  
And girl, I want you, I need you  
I wanted you, girl, it's the pleasing of your love, love I want, want, I need, need  
It's gotta be love 'cause I just can't get enough  
Nough, I want, want, I need, need  
It's gotta be love but I just can't get enough I really want, want, I need, need  
It's gotta be love 'cause I just can't get enough  
'Nough, I want, want, I need, need  
It's gotta be love 'cause I get lost in your touch Hey pretty little birdie, you got the look  
Come down the line with mine, you got me hooked  
Formerly, Snow and [Incomprehensible]  
Well, look in your face and break me with the charm That not the reason I would never fall in love again  
My motto was love em and leave em in the end  
Playin' on a gorgeous blond [Incomprehensible]  
Sing them him [Incomprehensible] I'm about the same book I hardly ever asked you but only in a favor  
See if our love was a while, you sleep before you fail  
Otherwise I'd be just like I was back then  
Here I, here I, here I go because I want you, I need you  
Gotta, gotta, gotta have you and your special lovin  
Girl, I want you, I need you, I wanna feed you  
And girl you know it's love, love I want, want, I need, need  
It's gotta be love 'cause I just can't get enough  
'Nough, I want, want, I need, need  
It's gotta be love 'cause I just can't get enough 'Nough, I want, want, I need, need  
It's gotta be love 'cause I get lost in your touch, touch  
I want, want, I need, need

It's gotta be love 'cause I just can't get enough
