Curious World

Alice's Night Circus

[verse 1.]
On a cold April morning,
The clock strikes thirteen,
A thousand and one shades of grey,
Follow the leader and drink down the cup of compliance,
But I donâ€™t need your thought control,
Iâ€™ve got my own brave new world,

[chorus]
Donâ€™t be afraid of the dark,
Itâ€™s just a place for your mind to wander,
Far away, far way,
Come back another day,
Oh,
Donâ€™t be afraid of your heart
Itâ€™s more than the sum of itâ€™s parts
so follow me,
Far away, far away,
Curious, curious world

[verse 2.]
Untold curiosities,
Wheels within wheels,
Wonderful realm of a car,
Welcome to my love affair,
With a strange yet familiar,
Embrace the eccentricity.
A sweet but intense sympathy,

[Chrous]
Donâ€™t be afraid of the dark,
Itâ€™s just a place for your mind to wander,
Far away, far way,
Come back another day,
Oh,
Donâ€™t be afraid of your heart
Itâ€™s more than the sum of itâ€™s parts
so follow me,
Far away, far away,

Curious, curious world

[bridge]

Ah, ah, ah, ahahah, ah ah ah ahahah ah ah, ahahahahahah, ah ah [backing repeats]

Untold curiosities,
Wheels within wheels,
Wonderful realm of a car,
Take of your pinstripes
your costume awaits at the door.
Just free your mind and explore

[Chrous]
Donâ€™t be afraid of the dark,
Itâ€™s just a place for your mind to wander
Far away, far way,
Come back another day,
Oh,
Donâ€™t be afraid of your heart
Itâ€™s more than the sum of itâ€™s parts
so follow me,
Far away, far away
Curious, curious world,

[fade out]
Ah, donâ€™t be afraid of the dark
Itâ€™s just a place for your mind to wander
Far away, far away,
Come back another day, ah.
