Talk

Tori Kelly

People talk, people talk
But they don't wanna say what they're really trying to say
Hopes and fears, smoke and mirrors
Save all the thinking, words by themselves they just fadePeople run, people walk
But they don't ever see past the world that they're in
So if it's talk that you want from me then maybe you should let me inOh, you keep saying you won't let me go
Oh, you keep saying what I've heard before
TalkPlaying with empty hearts, leading words felt like they're just going no where now
So if it's talk that you want from me then maybe you should let me inOh, you keep saying you won't let me go
Oh, you keep saying what I've heard before
Oh, you keep saying you won't let me go (talk)Keep talking to me bae
Keep talking to me bae
I know all about you
I know all about youYou keep saying you won't let me go
(Talk)Oh, you keep saying you won't let me go, oh oh oh oh
Oh oh oh (talk) oh oh oh you keep saying you won't let me go, oh oh yeah
(Talk)Oh, you keep saying things I've heard before, heard before babe
