

# Talk

## Tori Kelly

People talk, people talk  
But they don't wanna say what they're really trying to say  
Hopes and fears, smoke and mirrors  
Save all the thinking, words by themselves they just fade  
People run, people walk  
But they don't ever see past the world that they're in  
So if it's talk that you want from me then maybe you should let me in  
Oh, you keep saying you won't let me go  
Oh, you keep saying what I've heard before  
Talk  
Playing with empty hearts, leading words felt like they're just going no where now  
So if it's talk that you want from me then maybe you should let me in  
Oh, you keep saying you won't let me go  
Oh, you keep saying what I've heard before  
Oh, you keep saying you won't let me go (talk)  
Keep talking to me bae  
Keep talking to me bae  
I know all about you  
I know all about you  
You keep saying you won't let me go  
(Talk)  
Oh, you keep saying you won't let me go, oh oh oh oh  
Oh oh oh (talk) oh oh oh you keep saying you won't let me go, oh oh yeah  
(Talk)  
Oh, you keep saying things I've heard before, heard before babe  
(Talk)(Talk)  
(Talk)  
(Talk)
