

# If I Had Words (Theme from Babe)

**Keali'i Reichel**

If I had words to make a day for you,  
I'd sing you a morning, golden and new,  
I would make this day last for all time,  
and bring you a night deep in moonshine.

If I could dream another world for you,  
I'd dream you a world of freedom and truth,  
and in that place we'd be together,  
to live with this feeling for ever.

And may this love mean more than words,  
as the years go on, may life be more than dreams,  
may the love in our hearts stay strong.

If I had words to make a day for you,  
I'd sing you a morning, gold and new,  
I would make this day last for all time,  
and bring you a night deep in moonshine.

And may this love mean more than words,  
as the years go on, may life be more than dreams,  
may the love in our hearts stay strong.

If I had words to make a day for you,  
I'd sing you a morning, golden and new,  
I would make this day last for all time,  
and bring you a night deep in moonshine,  
and bring you a night deep in moonshine.
