All the Drugs

Courtney Love

The devil's driving my car tonigh and he's drunk
He's pissed he's mad
I don't care wich of you
He f**ks upI've played with fire
And the matches they are burning still in my hand
They can try to shut me up
They never will
They never will againwith all the drugs
with all the drugs
with all the drugs in the world
you cant shut up let goTheres no one in this bed
Obliterate the truth
Coz theres no lies
That I could be and you would knowwith all the drugs
with all the drugs
but there's all the drugs in the world
but there's all the drugs in the world
you can't shut up let gowith all all of my money
with all all of my love
with all all of my money
It doesn't feel as good
as the drugswith all the drugs in the world
you can't shut up let go
with all the drugs in the world
with all the drugs in the worldGonna burn out every inch of you
Oh baby I'll burn you till the lights all die
You'll never ever ever f**k like me
So baby why why do you even tryGeneration it has slipped away
Oh baby leave no trace of it behind
Steal the power of the powerful men
And baby leave here with me leave here tonight
