

I Never Came

Elisa

When you say it's dead and gone
I know you're wrong
Cut and slash, sharpest knife
It won't die, no
Poison cup, drank it up
It won't die, no
No fire, no gun, no rope, no stone
It won't die, oh Why you gotta shove it in my face
As if you put me in my place
'Cause I don't care
If you or me is wrong or right
Ain't gonna spend another night,
In your bed
In your bed Laws of man, are just pretend
They ain't mine
Love so good, love so bad
It won't die
Some talk too long, they know it all
I just smile and move on
Words ain't free, like you and me
I don't mind Why'd you have to be so mean and cruel,
The dogs are loose i'm on to you
You ball and...
Chained together from the dawn to dusk,
Can't call it leavin, cause it's just
