Girl in the Mirror

Cheryl Cole

You can always sense with me
When things aint quite right
I barely speak I cant seem
To sit still tight
Theres many things that run n pass
Through my mind
Its hard to show when youre
The only one with your eyes
Life expects me to be strong
Doesnt always mean Ive got to
Sing that song, need to take it
Easy on yourself, I need to take it
Easy on myself
Ive been picking lil fights with the
Girl in the mirror, with the
Girl in the mirror, stressing me
To be a woman
Oh, I dont need this today
I dont know quite what to say
To the girl in the mirror
Ive been picking lil fights with the
Girl in the mirror, with the
Girl in the mirror mirror
Mirror mirror
Picking lil fights with the
Girl in the mirror, with the
Girl in the mirror mirror
Mirror (mirror)
Take this time to think
Things out right
Coz when Im weak all I seem
To do is fight
Theres many ways that I could say
Im not fine instead I hold it back
With water filling my eyes
Life expects me to be strong
Doesnt always mean Ive got to
Sing that song, need to take it
Easy on yourself, I need to take it

Easy on myself
Ive been picking lil fights with the
Girl in the mirror, with the
Girl in the mirror, stressing me
To be a woman
Oh, I dont need this today
I dont know quite what to say
To the girl in the mirror
Ive been picking lil fights with the
Girl in the mirror, with the
Girl in the mirror mirror
Mirror mirror
Picking lil fights with the
Girl in the mirror, with the
Girl in the mirror mirror
Mirror mirror
With the gilr in the mirror
With the gilr in the mirror
Ive been picking lil fights with the
Girl in the mirror, with the
Girl in the mirror, stressing me
To be a woman
Oh, I dont need this today
I dont know quite what to say
To the girl in the mirror
Ive been picking lil fights with the
Girl in the mirror, with the
Girl in the mirror mirror
Mirror mirror
Picking lil fights with the
Girl in the mirror, with the
Girl in the mirror mirror
Mirror mirror
