

# I Don't Care

## Shivaree

I don't care you can do most anything  
I am on a string and you can lead me anywhere, I'll go there willingly  
Well some may say I'm for you to use and throw away, yeah  
That's what they'll say but they'll say most anything  
To keep you away from me How much love, loveable me?  
How much more can you take from me?  
You'll never go to sleep, I'll swallow all your time  
Doesn't matter what you say 'cause you are mine, mine, mine I'm saying, seasons change  
They march through they leave wounds behind  
Years are so unkind but they could never rearrange  
They can't change what I see How much love, loveable me?  
How much more can you take from me?  
You'll never go to sleep, I'll swallow all your time  
It doesn't matter what you say 'cause you are mine, mine, mine Saying, seasons change  
They march through they leave wounds behind  
Years are so unkind but they could never rearrange  
They can't change what I see What I see anything, anything  
I'll tell you what I'll do  
Anything, anything, all for you
