## Gets You Down

## **Court Yard Hounds**

When life gets you down What you gonna do?

x2Are you gonna stick your head in the sand?

Are you gonna turn and run just like that?

Are you gonna take a fall or a stand today? When hearts break you down

What you gonna do?

x2Are you gonna pitch a fight and cry?

Are you gonna beg the reasons why?

Are you gonna say and do what's wrong or right? Well you could always love me

Yeah you can always love me

Yeah you could always love meAnd if it don't feel right

At least you triedWhen I let you down

What you gonna do?

x2Are you gonna slip away in the night?

Are you gonna hold the babies tight?

Are you gonna give me more of your maybes and mights? Well you can always love me

You could always love me x2And if it don't feel right

At least you triedYou could always love me

And if it don't feel right At least you tried But did you try?
