

Who Hurt Who

All Saints

Wished we'd set a way
Set a way to better days
So now here we are
Not to give up but we still belong Oh, I'd still run to stop you falling to the ground
Cause I never wanna see you hurting like before
Did you ever think we'd get on better
Now we never have to worry
Who hurt who
Who hurt who
Travel for beyond
All the fighting now, we both moved on
Wonder where we'll be
A thousand days from here we'll see Oh, I'd still run to stop you falling to the ground
Cause I never wanna see you hurting like before
Did you ever think we'd get on better
Now we never have to worry
Who hurt who
Who hurt who I, I still need your arms around me
If I cry, I can't imagine me without you when I die
No, I never wanna lose you
Still around, I won't leave you
Friends till the end
Oh, and I keep running to stop you falling to the ground
Cause I never wanna see you hurting like before
Did you ever think we'd get on better
Now we never have to worry
Who hurt who
Who hurt who
Now we're through
