

Patterns (feat. Lianne La Havas)

Tourist

In good time, shapes will form
Color shine and lines are drawn
In good time, we'll be cast in gold
Soaked in light as plans unfold
As plans unfold
As plans unfold In our lives (in our lives), there'll be ups and downs (there'll be ups and downs)
That we'll be lost (we'll be lost) on silent crowds (silent crowds)
At this time (at this time) we will have to breathe (have to breathe)
Once unfold, the spiral lead I can see what's happening
The patterns are in front of me
Can you see what's happening
The patterns could be our only lead
I can see what's happening
The patterns are in front of me
Can you see what's happening
The patterns could be our only lead
They're all in front of me
They're all in front of me Can you see what I see?
The patterns are in front of me
Can you see what I see?
The patterns could be our only lead
I can see what's happening
The patterns are in front of me
Can you see what's happening?
The patterns could be our only lead
