Stay for a While

Unfames

If you would just stay for a while
Suga we could' find something to get into, baby boy it's on you
If we could just lay for a while let me ease your mind
Help you to unwind, spend a little quality timeGirl I know it's gettin' difficult to sleep at night
I'm gone to work, there's no one there right by your side
I called you up to say I'm comin' home in a few days
And I would like it if we could just lay and play for a whileIf you would just stay for a while
Suga we could find something to get into, baby boy it's on you
If we could just lay for a while, let me ease your mind
Help you to unwind, spend a little quality timeOh, oh, I'm missin' you, so much, I'm makin' plans for me and you
We gon' unplug the phone soon as you get home
Did I hear you say, you're comin' home in a few days
Baby, I can't wait, I anticipateIf you would just stay for a while
Suga we could' find something to get into, baby boy it's on you
If we could just lay for a while, let me ease your mind
Help you to unwind, spend a little quality timeOh, I don't know 'bout you but I'm in the mood
And I can hardly wait to love you over and over and over again
I'm keepin' my cool, I got a jones, don't wanna be alone
Come home oh oh, I'm missin' youIf you would just stay for a while
Suga we could find something to get into, baby boy it's on you
If we could just lay for a while, let me ease your mind
Help you to unwind, spend a little quality timeIf you would just stay for a while
Suga we could find something to get into, baby boy it's on you
If we could just lay for a while, let me ease your mind
Help you to unwind, spend a little quality timeBaby, I want to laydown with you
