

# Here To Stay

Avery Watts

(VERSE 1)

I am a ghost

The very thing that all fear the most

Not a man of flesh and blood (No!)

An apparition

A vision with no form

A mind inside the eye of a cyclone

I, encapsulating all space and time

Indefinably infinite (Right!)

All coalescing together we make scores

A one chord fermata forevermore(PRE-CHORUS)

Through all the wind and the rain

We remain

No matter the hurt or the pain

We don't wane

Whether weak or strong

We soldier on

Into the clear

Void of fear(CHORUS)

We're (We're)

Here (Here)

No, we're not going away (Now everybody say)

We're (We're)

Here (Here)

We're here to stay(VERSE 2)

Obey or take the reins

Make your choice

Raise stakes and wake your voice

Though take heed, every breath that you breathe will sow the seeds of the legacy that you will leave

We hold the keys to possibility

See, nothing can dim the light that we shine when our deeds will echo for all time
